WASTE 2 WEALTH

INDIA EXPO 2026

Waste 2 Wealth India Expo is India's premier business platform dedicated to advancing the circular economy by transforming waste into valuable resources through innovation, technology, and sustainable practices. The Expo brings together industry leaders, policymakers, technology providers, investors, researchers, startups, and sustainability champions to accelerate the adoption of next-generation waste management and resource recovery solutions.

The event covers the entire value chain, including **Municipal Solid Waste (MSW), Plastic Recycling, E-Waste, Biomedical Waste, Construction & Demolition Waste, Industrial Waste, Hazardous Waste, Water & Wastewater Management, Waste-to-Energy, Bioenergy, Composting, Circular Economy Solutions, Smart Waste Technologies, ESG, Carbon Management, and Sustainable Infrastructure.**

By connecting businesses, governments, innovators, and communities, Waste 2 Wealth India Expo is driving the transformation of waste into opportunity—creating economic value, protecting the environment, and building a more sustainable future for generations to come.

OPPORTUNITIES

Expansion of Waste 2 Wealth and energy projects to handle growing urban waste.

Increased biogas and biofuel production opportunities from agricultural waste.

Rising demand for better air pollution control systems in urban areas.

Development of recycling facilities for plastics and metals to achieve.

Growing need for effluent treatment plants in Industrial zones, especially for chemical industries.

INDUSTRY FACTS

Recycling Rates:

Only around 30% of municipal solid waste is currently recycled, emphasizing the need for improved infrastructure and sustainable practices.

Employment:

The sector employs millions, particularly in waste collection and processing, through many workers still face health and safety challenges.

Waste Generation:

India generates over 1,50,000 Tonnes of Municipal Solid Waste every day.

Investment:

The waste Management sector is drawing significant investments from both domestic and international players, with a strong focus on technology & innovation.

Public Private Partnerships:

Municipal bodies are increasingly collaborating with private companies to deliver efficient waste management solutions.

FUTURE TRENDS

Technology Integrations:

Implementation of IoT and AI in waste management to optimize collection, segregation and processing.

Community Engagement:

Programs designed to educate and involve local communities in waste segregation and recycling initiatives.

Circular Economy:

A growing shift towards sustainable systems that promote resource recovery and recycling.

Sustainable Practices:

Adoption of composting and biogas technologies to manage organic waste effectively.

CATEGORIES

Agriculture

Cement

Chemical

Engineering

Fertilizer

Food

Leather Industries

Mines & Minerals

Pharma

Plastics

Power

Refineries

Mills & PLants

EXHIBITOR PROFILE

SOLID WASTE MANAGEMENT EQUIPMENT

- Trash Compactor, Boilers, Waste Shredders & Incinerators
- Waste Sorting Systems
- Bins and Containers
- Waste Collection Vehicles
- Hazardous Waste Storage Containers
- Composting Equipments
- Food Waste Converters
- Solid Waste Management
- Plastic
- Paper
- Rubber & Tyres
- Ferrous & Non Ferrous Metals
- Construction Waste & Others
- Batteries
- E Wastes
- Plastic Extruders
- Waste Treatment Technologies
- Material Handling Equipments
- Land Filling Equipments

AIR POLLUTION

- Pollution control & Checking Equipments
- Air Purifiers & Environmental Manufacturing Instrument
- Dust Collector & Anti Smog Gun
- Environment Protection Services
- Gas Scrubbers & Absorbers
- Catalytic Converters & Selective Catalytic Reduction (SCR)
- Industrial Emission Standards
- Ventilation & Indoor Air Quality Products
- Monitoring and Data Analysis

CLEANING & SANITATION

- Space Cleaning Machines & Systems
- Road Sweepers & Garbage Compactors
- Vehicle for Waste Management & Transportation
- Vaccum Emptier & Steam Cleaners
- Lake & River Cleaning Equipments
- Mops, Brooms & Sweepers Pressure Wash
- Window cleaning tools, Scrubbers & Dusters
- Odour Control Equipments & Disinfectors
- Sanitizers & Antibacterial Wipes
- Cleaning Chemicals, Trash Bins & Bags

BIO ENERGY

- Compressed Bio-Gas (CBG)
- Bio Mass
- Bio Fuel Plant Manufacturers
- Bio Diesel
- Ethanol
- Bio Gas
- Hydrogen
- BioFuel Manufacturing Technologies
- Solid Pellets & Briquettes
- Bio Fertilizer

EFFLUENT TREATMENT

- Water Treatment Plants & Chemicals (WTP)
- Effluent Treatment Systems (ETP)
- Sewage & Sludge Treatment (STP)
- Waste Water Management
- Primary & secondary Treatment Tanks & Systems
- Aeration Systems & Clarifiers
- Filtration Systems & Disinfection Units
- Sludge Thickening & Dewatering Equipment / Zero Liquid Discharge
- Sludge Drying & Sludge Incineration

RECYCLING

- Recycling Equipment and Machinery
- Granulators & Sorting Systems
- Technology and Solutions Related to Metals
- E-Waste, Plastics, Papers, Glass, Rubber & Tyres
- Construction Waste, Batteries, etc
- Magnetic Seperators
- Recycling Bins & Crushers
- Recycling Services and Consultancy
- Recycling Process Optimizations
- Landfill Management Systems

OTHER GREEN SOLUTIONS

- Laboratory & Testing Equipments
- Monitoring & Control Systems
- Research & Developments
- Safety Equipments for waste handlers
- Technical Institutes
- Project Finance Companies
- Environmental Engineering Companies
- Automation & AI

VISITOR PROFILE

- Industrial users from manufacturing industries like Pharma, Chemical, Plastics, Food, Agriculture, Engineering, Power, Cement, Mines & Minerals, Fertilizers, Refineries, Steel Plants, Leather Industries, Sugar Industries, Rice Mills, etc.
- Waste management companies and Recycling companies
- Distillery / Brewery
- Hospitals, Hotels & Restaurants
- Dealers and Distributors, Retailers and Suppliers of Waste Management Companies
- Environment Equipment Manufacturers
- Government Policy makers
- Decision & Policy Makers from Water Industries
- Pollution control boards
- Environment Monitoring Authorities
- Public Health Departments
- Municipalities and Development Authoroities
- Urban Planners & Facility Management Companies
- Environment Consultants & Engineers
- Builders, Developers & Architects
- Sewage Treatment Professionals
- Education and Research Institutes
- Trade Associations, NGO's, Media Publications & All other Stake Holders
- Irrigation Department
- Public Sector Undertaking (PSU's)
- FPO (Former Producer Organization)
- BioFuel Manufacturers & Retail Outlets

SPONSORSHIP OPPORTUNITY

PRE-LAUNCH ENDORSEMENTS

"The growing focus on the circular economy makes W2W India Expo a timely initiative. We are excited to explore new technologies, connect with industry peers, and discover business opportunities under one roof."

Recycling Industry Leader

"Bioenergy is playing an increasingly important role in India's clean energy transition. W2W India Expo will provide an excellent platform to exchange ideas and promote sustainable innovations."

Bio Energy Expert

ABOUT THE ORGANISER

BluePrints Ventures is a next-generation events, exhibitions, and business experiences company committed to creating platforms that inspire innovation, foster collaboration, and drive meaningful business growth. Built on a foundation of excellence, creativity, and strategic thinking, we specialize in delivering world-class conferences, exhibitions, trade shows, summits, awards, and experiential events that connect industries, businesses, and people.

One of our defining strengths is our pioneering “One Industry. One Voice. One Day.” initiative—a unique platform that unites industry leaders, policymakers, innovators, manufacturers, technology providers, and key stakeholders under one roof to address emerging trends, exchange knowledge, and accelerate industry-wide collaboration.

This visionary approach has successfully brought together sectors including Commercial Vehicles, Off-Highway Equipment, Passenger Vehicles, Two- & Three-Wheelers, Electric Mobility, Oil & Gas, Education, Packaging, Corrugation, Manufacturing, Engineering, and Industrial Machinery, creating influential ecosystems that drive progress and collective impact.

At BluePrints Ventures, we believe events are far more than gatherings—they are strategic business platforms. Every experience we design is powered by research, enriched by industry insights, and executed with precision to encourage meaningful conversations, strengthen partnerships, generate business opportunities, and inspire innovation. By integrating cutting-edge event technology, immersive experiences, and customized engagement strategies, we create environments where ideas flourish and businesses thrive.

Whether launching a new product, hosting an international conference, organizing a large-scale exhibition, or building an industry-defining platform, our commitment remains the same: to deliver seamless execution, exceptional experiences, and measurable business impact.

BluePrints Ventures is more than an event partner—we are architects of business ecosystems, creators of meaningful experiences, and catalysts for innovation, collaboration, and sustainable growth.
